

## Essen cooks up recipe for high productivity with Infor VISUAL.

*"We needed to automate our processes and centralize data being managed by separate software packages. With VISUAL ERP, we can be more competitive as we evolve and grow."*

CARLOS CHIMENO, IT MANAGER, ESSEN

### Facts at a glance

Solution: ERP

Products: VISUAL ERP

Industry: Industrial Manufacturing

Country: Argentina

### About the company

Founded in 1980 in Argentina, Essen is a leading manufacturer of cast aluminum kitchen cookware, sold through direct sales operations. The company has shown continuous growth and now has operations in Paraguay, Uruguay, and Chile.

*"Our two main challenges were to have the system reflect our complex production cycle and integrate with other applications. VISUAL ERP met those challenges well."*

Carlos Chimeno, IT Manager, ESSSEN

### Challenges

- Integrate several different applications in various areas.
- Manage more than 50 application interfaces.
- Automate many inefficient manual processes.

### Benefits

- Successfully integrated all production operations areas.
- Reduced lead times and inventory.
- Streamlined and automated processes that improved productivity in planning and scheduling, inventory, supply and distribution, and administration.
- Gained insight into production levels and requirements in order to meet delivery schedules.
- Increased customer satisfaction.
