

GRAHAM ENGINEERING

## GRAHAM ENGINEERING CORPORATION

**(GEC) IS THE GLOBAL STANDARD IN WHEEL & INDUSTRIAL EXTRUSION BLOW MOLDING SOLUTIONS.**

Faced with the challenge of managing multiple world-class brands in different business systems, Graham Engineering reached out to Synergy Resources and the [Synergy Center of Excellence](#) to help design a scalable foundation that would streamline the business processes to support the corporation's future growth needs.

After meeting with the Synergy team, it was clear they possessed the experience and knowledge to help Graham achieve their corporate initiative of consolidation of business units and standardization of processes.

**Patricia Zwergel, V.P. Finance and Jeffrey Cooper, V.P. Information Technology, shared,** *"The Synergy Center of Excellence team immediately helped to bring visibility to our company's strengths and weaknesses through a series of business process mapping sessions. Together, our companies effectively re-engineered critical processes while concurrently installing and configuring an ERP system to support the Graham business needs.*

*The Infor VISUAL Manufacturing ERP system, in combination with Synergy's ERP extension tools, were then used to train our employees on the new processes and conduct a series of pilot tests to develop our expertise with both the newly engineered processes and the software's features and functions.*

*The Synergy team's extensive knowledge and experience in manufacturing, finance, continuous improvement and change management were instrumental in our companies achieved success.*

*Synergy's technical support team provided expertise in delivering data migration and supporting programming needs during the project.*

*Today, Graham operates in a single VISUAL Manufacturing database that supports multiple brands, processes and manufacturing needs. Soon we will be further strengthening our quality systems and leveraging our strong partnership with the Synergy team".*

**GRAHAM ENGINEERING CORPORATION, WHICH ALSO OPERATES UNDER THE NAME GRAHAM ENGINEERING, IS LOCATED IN YORK, PENNSYLVANIA.**

**THE ORGANIZATION IS ONE COMPANY COMPRISED OF THREE MAJOR BRANDS; GRAHAM ENGINEERING, AMERICAN KUHNE, AND WELEX. IT SERVES CUSTOMERS IN THE UNITED STATES AND INTERNATIONALLY. THE**
