The Only Manufacturing ERP
That Creates Order Out of Chaos

HOLLA SPIRITS

"If it weren't for PFM/E being in place, we would have a huge burden keeping track of inventory and purchasing, using our old Excel spreadsheets. I am confident in offering this positive recommendation for this great solution and great team of capable professionals."
Bill Shorb, VP & CFO, Holla Spirits

Protected Flow MANUFACTURING™ ENTERPRISE
by LillyWorks

Better Production and Operations Management = Better Bottom Line

Protected Flow Manufacturing™ Enterprise
(PFM Enterprise) seamlessly combines advanced production planning and execution with a powerful, cloud-based ERP to help you improve shop floor operations, make informed business decisions, and increase profit.

PFM Enterprise can help your shop:

Manage production with confidence
Gain the visibility you need to drastically improve the flow of information and materials and increase the speed of execution in your shop.

Get efficiency and financial clarity
Get access to accurate, consolidated performance data whenever you need it to make decisions that are essential to sustained growth.

Improve manufacturing operations
Easily integrate what matters to your business and maintain granular control over how your teams organize, access, and analyze critical information.

Keep supply and demand in sync
Combine Demand Driven MRP with PFM to simplify material planning and remove reactive drama from day-to-day inventory management.
